Deafblind Scotland Complaints policy

Policy Statement

Deafblind Scotland believes that if a service user wishes to make a complaint or register a concern they should find it easy to do so and welcomes complaints and look upon them as an opportunity to learn, adapt, improve and provide better services. This policy is intended to ensure that complaints are dealt with properly and that all complaints or comments by service users, their relatives and carers are taken seriously.

The policy is not designed to apportion blame, to consider the possibility of negligence or to provide compensation. It is not part of the disciplinary policy.

Deafblind Scotland believes that failure to listen to or acknowledge complaints will lead to an aggravation of problems, service user dissatisfaction and possible litigation. Deafblind Scotland supports the concept that most complaints, if dealt with early, openly and honestly, can be sorted out in an informal way between the complainant and managers. If this fails due to either the staff or the complainant being dissatisfied with the result the complaint can be referred to the Care Inspectorate.

The aim of Deafblind Scotland is to ensure that its complaints procedure is properly and effectively implemented, and that service users feel confident that their complaints and worries are listened to and acted upon promptly and fairly.
